Nature of Complaint:

DOCKET NO. E-01933A-15-0100 OPPOSE

I am writing to encourage you to say "NO" to TEP's solar proposal. TEP is hard working the people of Tucson because they are saying rooftop solar customers are not paying their fair share of the use of the wire that connects them to the power grid.

This is simply NOT true! Each rooftop solar system is in and of itself a mini - power station. We are feeding the power grid & fueling our energy needs. Each solar system reduces TEP's need to burn coal, which has a HUGE impact on our water & our health! Please stop TEP it's not about the \$!! Thanks Nicole Snook.

Dear Utility Division,

Why should any one have to pay for free sun light?...Solar systems are not free, it is like Desiel,whitch is a wast product! The greedie get richer and richer, so the hard working have to pay 10 times as much as they should!!!!!!
Why don't do what you said you would do?

Sincerely,

Eric G Whitley

Dear Utility Division,

Consider this memo as a reminder that we the, consumers of electrical services provided by APS expect you, the members of the corporation commission to honor your word. You committed not to allow utilities to charge rates for solar power until said rates could be established during a rate hearing. Please do not single out solar users to break your word and give utility companies an opportunity to take unfair advantage which they surely will.

Sincerely,

Sandra Norman Honyaoma

Dear Utility Division,

I do not believe the Utility companies should be asking for a fee or tax to consumers with owned Solar Energy. That's completely ludicrous and should be a crime. It's completely up to the independent individual of how they want to power their own house or building for that matter.

Sincerely,

Ronny Bolsega

Dear Utility Division,

The AZ utility companies have been raising rates for years, and now they want to shut down Solar Energy ? Why? Because they don't like Solar Energy competition!

Too bad, I think APS is being greedy. Are they really willing to anger their customers...well they have succeeded by angering me!

I have lived in AZ for 25 years, and I even vote as often as possible.

Sincerely,

Daphne Coulter

Subject: Trico: Docket No. E-01461A-15-0057 SSVEC: E-01575A-15-0127 APS: 13-0248 TEP: E-0 1933A-15-0100 UNS:

Dear Utility Division,

as we all know solar energy is our long term path to a sustainable future, there are no other options. The utilities are waging a war on solar with special discriminatory rates determined outside the proper venue, this needs to be discussed using established procedures; rate cases. All the while the important states like California & Hawaii are increasing the RPS, and have strong government support for solar - with the resulting increase in jobs and cleaner environment, as well as showing sustainable leadership. Sadly Arizona looks to the rest of the nation as the most unfriendly state for solar. This will impact jobs and new business development. Time to put the utilities on a leash and get them in line with the interests of the people. Change is hard, yet it is inevitable, time to embrace change and support solar.

Sincerely,

Randy Dunton

Subject: Trico: Docket No. E-01461A-15-0057 SSVEC: E-01575A-15-0127 APS: 13-0248 TEP: E-0 1933A-15-0100 UNS:

Dear Utility Division,

You have been elected to protect the residents of Arizona from unfair fees and taxes levied on us by companies such as APS. Please keep this in mind when deliberating on unnecessary (unwarranted, unjust) solar fees. No decision should be made until APS submits for it's 2016 Rate Hearing Case. At that time it will be appropriate for ACC to consider if, in fact, any changes to the current solar fee is necessary.

This bits and pieces approach to taxing solar customers is unfair and without basis.

I respectfully request that the commissioners postpone any solar based decisions until the 2016 rate hearing.

Please remember you have been elected by the people as our voice of reason and protection,.

Sincerely,
Howard E Jones

Dear Utility Division,

People are looking at clean renewable sources for power. They should not be penalized for the foresight that we need to change now before it is too late. The power companies profit from excess power generated by these panels. If you continue people will completely disconnect from the power grid, and as you should know this is now possible.

Sincerely,

James Weeder

Dear Utility Division,

Please, encourage utilities to find away to subsidize solar panels for customers. This could allow each home with solar to be a generator for the utility. DO NOT penalize customers for purchasing solar system.

Sincerely,

Marty Escarcega

Dear Utility Division,

Four utilities are trying to levy charges on solar customers outside of established procedures.

Utilities shouldn't get special treatment to raise rates for solar.

The fair process for discussing solar rates is in a rate case.

All Commissioners, and APS, have stated that solar rates should be looked at in a rate case.

The Commission should stick to their word and not let utilities raise rates outside of the proper venue.

Sincerely,

John Spall

Dear Commissioner,

Gentlemen / Ladies,

You have been elected to protect the residents of Arizona from unfair fees and taxes levied on us by companies such as APS. Please keep this in mind when deliberating on unnecessary (unwarranted, unjust) solar fees. No decision should be made until APS submits for it's 2016 Rate Hearing Case. At that time it will be appropriate for ACC to consider if, in fact, any changes to the current solar fee is necessary.

This bits and pieces approach to taxing solar customers is unfair and without basis.

I respectfully request that the commissioners postpone any solar based decisions until the 2016 rate hearing.

Please remember you have been elected by the people as our voice of reason and protection.

Nature of Complaint:

Docket no. E-01933A-15-0100 OPPOSE

Subject: Docket E-01933A-15-0100

TO: Arizona Corporation Commission | Utility Division

I write to express my concern in regard to the proposal by Tucson Electric Power (TEP) that will result in disincentives for consumers to add solar devices to their homes or commercial property.

I have the benefit of 48 photovoltaic panels on my home. This technology makes great and common sense here in Arizona.

Of course, it has reduced considerably my monthly utility bill. However, as I overproduce electricity on a daily basis (a net production that goes back into the grid) TEP makes a substantial profit on reselling the energy produced on my rooftop to homes in my area. This profit offsets TEP's claims that my account does not contribute to the cost of maintaining the grid.

I urge AZCC to take steps that encourage the expansion of solar-generated power; and to create policies that reduce the use of carbon-based fuels that contribute to climate warming in a time scale that protects TEP's interests but that also provides protection for our region from the environmental difficulties associated with temperature rise.

Thank you for your consideration of this important matter.

Charles

DOCKET NO. E-01933A-15-0100 OPPOSE

This comment pertains to Docket No. E-01933A-15-0100 :

I would like to strongly protest TEP's proposal to change the way excess solar power from a home-owners passive solar rooftop system is bought and sold by the company. TEP buying it at wholesale rates then charging back at retail, plus not being able to bank excess power over the year will virtually shut down the passive solar installations for private homes in Arizona, the state most appropriate for solar panel installations in all of the United States. I myself am waiting for a decision so that I can have a system installed by SolarCity. It would be far better to just have a slightly higher fee from TEP for the grid hook-up charge. I also feel strongly that TEP should encourage clean renewable electricity and not commit to the coal-fired San Juan plant in Farmington, NM. We must stop the use of coal to generate our power needs. Please do not allow any new fees or policies that will discourage the growth of passive solar power.

Dear Utility Division,

I have recently learned that there are four utilities that are trying to levy additional charges for those of us who are solar customers. Further, they are attempting to do so outside of the accepted rate case procedure. Both APS and the Commission has stated that any changes of this kind should be considered within the rate case procedure.

I am especially concerned about this effort because any such additional taxes will discourage potential solar customers from going solar. The initial expense for a system (In our case, \$22,000 after tax incentives and the APS rebate) is such that any additional costs to the resident or business will clearly discourage solar development in our state. In regard to solar energy users, we are only 5th in the country per capita. With our great sunny weather, we can be number one if solar customers are treated fairly by the utilities. Let's work together to make Arizona the first state in solar!.

Sincerely,

Jayne Stake

Subject: Trico: Docket No. E-01461A-15-0057 SSVEC: E-01575A-15-0127 APS: 13-0248 TEP: E-0 1933A-15-0100 UNS:

Dear Utility Division,

Please stick to the ACC's previous word that no changes to current solar plans should be considered unless it is part of a rate case.

This bits an pieces approach to the regulations if not in the best interest of the people you were elected by to protect their rights.

Sincerely,

Rich Mason

Subject: Trico: Docket No. E-01461A-15-0057 SSVEC: E-01575A-15-0127 APS: 13-0248

Dear Utility Division,

The least citizens should be able to expect from those in elected positions is to keep their promises. This isn't complicated. Review rate changes , including punitive ones against solar, as part of a rate case, not outside the normal process.

With respect,
Tim and Kate Kosse

Sincerely,

Kate Kosse
